

Austin Stephens

Lab 11

4/11/17

1. I added in another constructor to the Date class that accepts another Date objects and then switched the print statement to print the date in European format. I created two Date objects one with the basic constructor and then another where I set the date to today. I then copied the second Date to another Date object called newDate.

```
C:\Users\iamam\Desktop\School\CECS 130\Labs\Lab_11\Lab_11.exe
2017/1/1
2017/4/11
2017/4/11
