Lab 05

2/14/17

My program successfully defines a adder and subtractor function and keeps a running total. The main calls adder and subtractor four times and all the values for total are correct.

```
C:\Users\iamam\Desktop\School\CECS 130\Labs\Lab_05\Lab_05.exe

Enter a number you want to add:
8
The total is 8
Enter a number you want to subtract: 9
The total is -1
Enter a number you want to add: 6
The total is 5
Enter a number you want to subtract: 2
The total is 3
Enter a number you want to add: 3
The total is 6
Enter a number you want to subtract: 6
The total is 0
Enter a number you want to add: 4
The total is 4
Enter a number you want to subtract: 20
The total is -16
